

Steinway Lyngdorf continues HDMI 2.1 upgrade program with Lyngdorf MP-40 2.1 and Steinway & Sons P100 2.1

Skive, Denmark – January 30, 2023 – Steinway Lyngdorf introduces 8K-ready HDMI 2.1 technology upgrades for its multichannel processor Lyngdorf MP-40 and digital multichannel processor Steinway & Sons P100.

The upgrade will be available beginning of March 2023 for new ordered multichannel processors, as well as for upgrading customer's existing MP-40 at the company's headquarter in Skive, Denmark.

As early as January 2021, Steinway Lyngdorf was one of the first to market with offering HDMI 2.1 in its flagship multichannel processors MP-60 and P300, followed by offering an HDMI 2.1 upgrade program for customers owning an MP-60 or even first-generation MP-50. The company's digital stereo amplifier TDAI-3400 is also available now with an optional HDMI 2.1 module, both for new and existing owners.

The new HDMI board in the MP-40 2.1 offers 3 HDMI inputs and 2 HDMI outputs.

"We always want to provide our customers and business partners with the very latest technologies for the best video/audio experience. Making HDMI 2.1 available in all our multichannel processors and stereo amplifiers, as well as offering upgrades for existing products, emphasizes our focus on technology and customers." Thomas Birkelund, CEO and CTO of Steinway Lyngdorf

Key features of HDMI 2.1 include:

- 8K 50/60Hz and 4K 100/120Hz
- Enhanced Audio Return Channel (eARC)
- Support for Auto Low Latency Mode (ALLM) and Variable Refresh Rate (VRR) modes
- Support for static and dynamic HDR allowing for extended dynamic range and wide color gamut
- HDCP 2.3 premium content protection

Products now available with HDMI 2.1:

Lyngdorf MP-40 2.1, multichannel processor with RoomPerfect™ and 12 channel decoding
Lyngdorf MP-60 2.1, multichannel processor with RoomPerfect™ and 16 channel decoding
Lyngdorf TDAI-3400, digital stereo amplifier with RoomPerfect™ and optional HDMI 2.1 module

Steinway & Sons P100 2.1, multichannel processor with RoomPerfect™ and 10 channel decoding
Steinway & Sons P300 2.1, multichannel processor with RoomPerfect™ and 16 channel decoding

About Steinway Lyngdorf

Steinway Lyngdorf (SL Audio A/S), was founded in Denmark by audio innovator Peter Lyngdorf in 2005 to design, develop, and manufacture sound systems and components under the umbrella of two legendary brand icons: Steinway & Sons and Lyngdorf Audio. The mission of SL Audio A/S is to serve music and film connoisseurs who seek unprecedented innovations in the technology of pure sound. The company pushes the boundaries for audio performance with the development of proprietary new technologies including RoomPerfect™, the world's most advanced room correction system, and true digital amplification which premiered in the ground-breaking Millennium, the first fully digital amplifier in the world.
