WHAT'S NEW IN 2023

WHAT'S NEW IN 2023

As summer 2023 draws to an end, the French loudspeaker manufacturer TRIANGLE is updating its portfolio with new finishes and accessories.

For 40 years, TRIANGLE has pursued the same philosophy, promoting Hi-Fi speakers as objects of both sound and pleasure, to be enjoyed by dedicated listeners for years to come. Particular attention has been paid to the cabinet finishes, both to embellish the speakers and to match the interior design.

A new golden oak veneer is introduced to the Signature range. The amber shade and glossy reflections bring timeless elegance and warmth. The Esprit EZ range boasts a more modern matte light oak finish, in line with Scandinavian design.

TRIANGLE is also launching new S05 speaker stands, available in four colors to match your personal taste.

ESPRIT EZ RANGE
LIGHT OAK FINISH

The ESPRIT EZ Series is the core of TRIANGLE HI-FI's engineering. Boasting 40 years of acoustic research and development, these speakers are sophisticated yet affordable.

ESPRIT EZ RANGE

LIGHT OAK FINISH

To continue bringing Hi-Fi to as many people as possible, TRIANGLE has given its Esprit EZ Series a new light oak finish, a matte wood with soft, light tones that fits elegantly into any interior.

Perfectly blending into the background and reducing its visual impact, this speaker will reproduce music with all the accuracy and dynamics emblematic to the TRIANGLE sound, with little visual disruption.

The new Light Oak finish is now available across all models of the ESPRIT EZ range.

SIGNATURE RANGE
GOLDEN OAK FINISH

Following the success of the Magellan 40TH and Esprit 40TH ranges, TRIANGLE adds its new golden oak finish to the Signature range.

SIGNATURE RANGE

GOLDEN OAK FINISH

Building on the research conducted on the cabinetry of the Magellan range, the Signature speakers feature a high-density wood cabinet with a high-quality finish.

Replacing the current Mahogany finish, the Golden Oak finish adds a touch of modernity and luxury, while offering the same timeless elegance typical of TRIANGLE's high-end Series.

The Golden Oak finish, with its harmonious shades and pronounced wood grain, makes it a genuine sound sculpture that stands majestically in your listening room. With its own unique character, this speaker will be the obvious choice once you have listened to it.

The new Golden Oak finish is now available across all models of the SIGNATURE range:

Alpha

6599€/pair

Delta

4999€/pair

Theta

RANGE OF ACCESSORIES
NEW S05 SPEAKER STANDS

The new S05 stands are designed for bookshelf models, ensuring stability and optimum speaker positioning. With new finishes, they will blend discreetly into any interior.

RANGE OF ACCESSORIES

NEW S05 STANDS

The S05 stands are designed for bookshelf speakers, ensuring stability and optimum speaker placement. With a height of 62cm, the S05 stands position your speakers at ear level, so you can hear your music in brilliant detail.

Designed for audiophile systems, the S05 benefits from a robust construction to absorb all speaker vibrations. The 18 x 29.5 cm top plate can accommodate most bookshelf speakers weighing up to 25 kg and features a non-slip coating for excellent stability.

The S05 speaker stands feature a refined design, combined with a wide choice of colors, for perfect integration into your interior. The bottom plate boasts an elegant glass finish molded at high temperature. It incorporates an adaptive decoupling system with variable-height steel spikes or rubber feet, to be used depending on your flooring.

A special mounting system is also available for TRIANGLE Comète 40TH Anniversary models.

Height-adjustable steel decoupling spikes

RANGE OF ACCESSORIES

NEW S05 STANDS

The S05 stands are sold in pairs and are now available in four finishes: High Gloss Black, High Gloss White, Satin Light Grey and Dark Wood:

High Gloss Black

High Gloss White

Satin Light Grey

Dark Wood

The central aluminum tubular structure, developed by TRIANGLE, guarantees structural rigidity while absorbing unwanted vibrations. The stand features a cable management system at the rear for discreet integration. It can be filled with fine sand or steel balls to enhance sound performance.

RANGE OF ACCESSORIES

NEW S05 STANDS

Technical specifications	S05
Type	Speaker stands
Height with spikes	640 mm
Height without spikes	620 mm
