A NEW STAR FROM EARMEN

After one year of showing up in the Hi-Fi world, EarMen is coming up with NEW sophisticated DAC with wide range of abilities to offer. EarMen Tradutto is a piece-of-art device with the power to Enhanced Sonic Performance of your system.

ALL THE SOURCES

OUTSTANDING AUDIO PERFORMANCE

Tradutto lets you enjoy music from any source, such as Coaxial, USB, TOS Link connections or HD Bluetooth. Wherever songs are played from, Tradutto stays true to the character of every instrument and uncovers a musicality you've never heard before.

At the heart of Tradutto is the extremely high-quality ESS Saber digital-to-analog converter ES9038K2M that handles digital audio files up to 32bit/768kHz or DSD512, so you can enjoy high-resolution music in every detail.
